

Premium Past Date Record Recall is a method to recall interactively a PNR that was previously purged from the system. This is known as a **Purged PNR** or **Past Date Record (PDR)**, and the result is displayed with 2 or 3 seconds.

Note :The PNR is purged 4 days after the start date of its last segment, Whether that segment was canceled or not.

HE RPP

1) Recalling Purged PNR

There are several ways of recalling Purged PNRs:

- a) You can recall a purged PNR by referring to an air segment in the original PNR

RPP/AF7708/16DEC09*T

RPP/	Transaction code
AF7708/	Airline code and flight number, slash
16DEC09	Mandatory flight date
*T	Asterisk, target output display (T for terminal, Q for queue 96, P for print)

In case you have list of PDRs, you can select using the below entry, where “1” is the line number :

RLDT1

- b) You can recall a purged PNR by the original PNR’s record locator

RPP/RLC-ABC123/03APR06

RPP	Transaction code
/RLC	Slash, record locator indicator
-A1B2C3	Dash, record locator.
/03APR06	Slash, any date between PNR creation and PNR purged (Optional)

- c) You can recall a purged PNR by the ticket number

RPP/TKT-0060077000072

RPP	Transaction code
/TKT	Slash, Ticket indicator.
-0060077000072	Dash, ticket number (maximum 13 characters')

- d) You can recall a purged PNR by the frequent flyer number/flight/date

RPP/FFN-KL233418776/KL214/04OCT09

RPP	Transaction code
/FFN	Slash, frequent flyer indicator.
-KL	Dash, code of airline owns the frequent flyer number
233418776	Frequent flyer number
/KL214	Slash, airline code and flight number.
/04OCT09	Slash, flight departure date.

- e) You can recall a purged PNR by using a travel insurance confirmation number

RPP/INS-CHREG/51876351

RPP	Transaction code
/INS	Slash, insurance indicator
-CHREG	Dash, insurance provider code, two letter country code.
/51876351	Dash, insurance confirmation number (Maximum 22 Characters)

2) After Recalling the Purged PNR

Once the **PNR** is displayed, you can only view it but cannot modify it as the **PNR’s** are open in **Read Mode** only

```
